What is A TRIAL LESSON

IT IS

1. The sheer exhilaration of flying in a light aircraft.
2. A 'hands on' flight
3. An introduction to the art of flying an aircraft.
4. A one off experience or the start of a flying career.

All flights are with one of our fully licenced flying instructors.

PRE-FLIGHT

All flights take the same basic format, ie. first there is a short pre-flight briefing in the classroom on the effects of controls and straight and level flight. There is also a short safety talk after which any questions or queries can be dealt with.

THE FLIGHT

The flight itself consists of the instructor taking off and flying the aircraft until he has demonstrated what was discussed during the pre-flight briefing. The student is then invited to fly the aircraft for the next 15 minutes or so (30 minute flight) or 45 minutes (1 hour flight). There will also be time to take some photographs during the flight.

The instructor then takes control of the aircraft for the landing back at Humberside Airport.

POST FLIGHT

After parking the aircraft there is still time for a quick photograph in front of the aircraft before making your way back to the office where a certificate of your achievement is waiting for you.
